

# RediTALK Air

RediTALK Air provides added mobility to dispatch operations. This extends radio networks beyond the dispatch station and into other areas of the office, even for use by managers and supervisors.

RediTALK Air has been designed for simple operation on tablets with the enhanced touch screen features they provide.

Operators can choose the Talk Group or Channel they wish to talk to or monitor. They can also use advanced digital radio functionality such as individual calls and text messaging.

RediTALK Air can be used in conjunction with RediTALK or DX-Altus systems or as an independent dispatch solution.

## Applications

- Small Digital Radio Networks
- Mobility in Dispatch Centres
- Extending Radio Network Access to Managers & Supervisors
- Supplementary to RediTALK or DX-Altus Networks
- Redundancy for other consoles

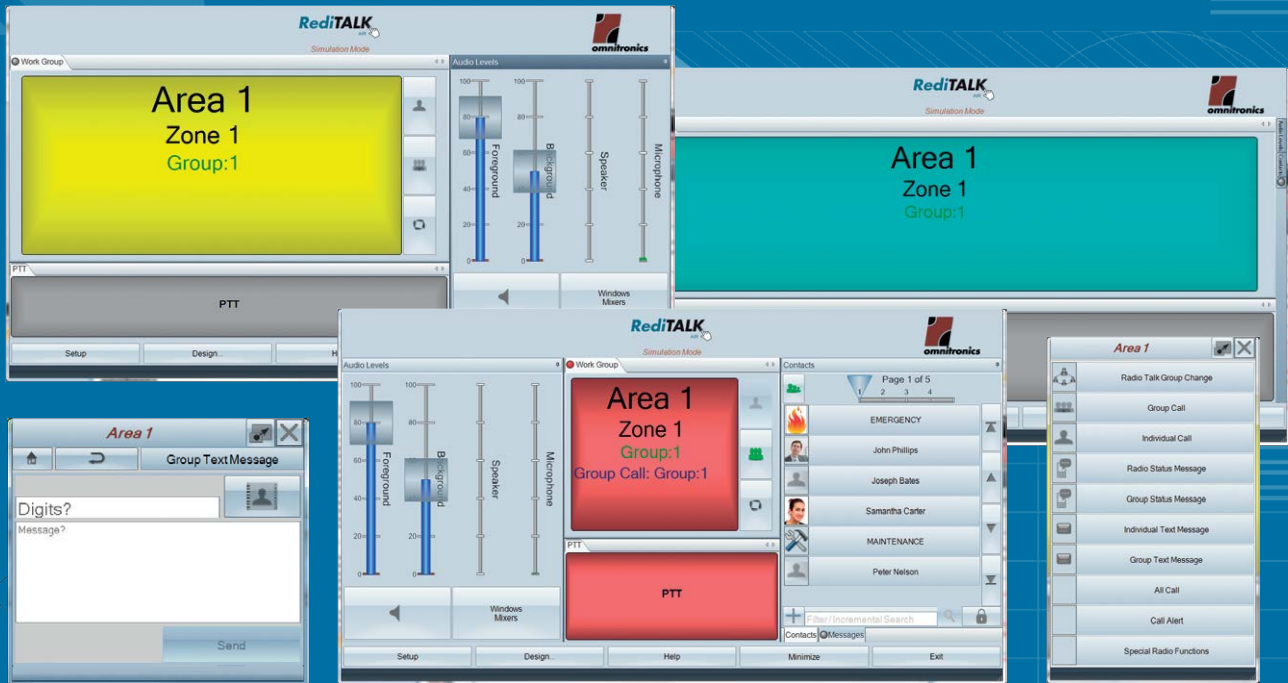

## Specifications

For Tablet Operation  
Windows 8 Upwards Compatibility  
Size : 10.1"

Omnitronics suggests that you purchase RediTALK pre-installed on our recommended tablet.

This also comes with the option of a desktop docking station which includes Ethernet, USB, HDMI and VGA ports.
